NORWAY AND VICINITY

Letter From the Summer Isles

M. E. Cummings, an Oxford County Bear, employed at the Princess Hotel, Bermuda, has written interestingly about the island. Naturally he is anxious to receive letters from Norway, Paris and vicinity. Do not use post cards for the office at Bermuda collects three cents before delivery. Our two-cent postage stamp is raised one-half cent before letters are passed out. Letter postage from Bermuda is five cents, so replies to all who now write might work into an excusable delay.

Following are extracts from his letter: He writes: "There is never a frost here but have seen the temperature at 40 degrees. When the wind blows from the north and west it feels cold. The air is clearer than at home and the sun sweeter. It rains often for a short time."

"There are no springs, brooks or ponds, the rock is porous sandstone, the natural tree is a cedar. This island is shaped like a fish hook, with many small islands within the hook. The main island is not over two miles wide anywhere and about twenty-six miles around. Area is nineteen and one-half square miles."

"The natives are the Indian and negro slaves blended but rather smart people."

A dangerous blaze in a chimney at the Noyes block, corner Main and Deering streets, required the services of Chief Giles Frost, two firemen and a chemical about thirty feet Sunday morning. Rooms occupied by Mrs. Alice Munston over Smith's Shoe Store were filled with dense smoke when the firemen arrived and conditions appeared serious. A high wind was blowing at the time. The large chemical tank subdued the fire. Work caught fire from sparks and intense heat. Damage was principally to paper and paint.

BASKETBALL

Norway Professionals 39; Wassaits 18

A fast clean-cut professional basketball game net at Norway Opera House, Saturday evening drew a large patronage and demonstrated class speed with spectacular individual work. Norway led the Wassaits from the start and closed the grid with a score 39-18. This was a benefit for Norway High School Athletic Association with a good sum realized.

The Wassaits quintet are the speedy Auburn-Lewiston Twin City stars known in New England as one of the best professional basketball aggregations.

In the line-up were Del Bissonette, Spectman and Munahan, all well known basketball stars and very fast. The outfit worked easily and clearly demonstrated an ability to handle the pill.

Norway assembled a galaxy of stars for the occasion. They represented the fastest bunch of basketballers to show their wares before the local fans, and pulled together with little friction.

Massachusetts contributed largely to the game. The veteran Follinshee of Haverhill, well along in years, but spry as a kitten. He was given the captain's berth and handled his outfit with ease.

Apparently Father Time has overlooked muscular development and pep with the enthusiasm of youth. He gave the Wassaits guards a good run and no little bother.

Marvotte, captain of the Haverhill Professionals was a keen article at center and some bird on the tip-offs. His hop work netted six field goals.

Gallagher, left guard, hailed from Boston and came to town with a keen eye. He led at the ring with seven tosses from the floor and one on the foul line. As a guard this Bostonian displayed a sample case packed with professional stunts and smart cuts.

Hobbs, Wheeler and Townsend were local players to deliver speed. Their work compared favorably with more experienced surface skippers in the line-up and they fitted naturally into team action. Summary:

Referee, Roy Luce, Norway; time, 40 minutes; scorer, Andrews, Norway. Time, four 10 periods.

The cutting room team from the Carroll, Jefferson Co. failed to appear against the Norway Shoe Co. outfit in the preliminary. For a substitute Dan Dulong's Keltians guested the Cox family. Keltians put on a one reel extravaganza. Geo. "Stub" Eastman, a modest youth, experienced a bad case of stage fright and Billy White filled the position as referee acceptably.

Mack Sennett has nothing in his stock to match the comedy stunt and an intellectual description of the game is impossible. The costumes will tell the story. Both were fearfully and wonderfully put together. Spring, Summer, Autumn, and Winter were represented in this delirium featuring boxing gloves, bathing suits, catfish masks, rubber boots, firemen's hats, bell hop uniforms and other articles of a ridiculous nature. The brand of basketball was in keeping with the uniforms and slap stick antics. The result of the game is in doubt. None can recall the number of baskets made during the riot of color and action.

Dancing closed the program with music by Harley True's Orchestra with Dube of Lewiston the vocal soloist.

N. H. S. Sophomores 15, West Paris 14. A well matched game at the gymnasium, Friday evening, proved exciting and clean. The "Sophies" took honors away from the West Paris crew after a hard tilt ending in an overtime period. The Parisians bolted at the start, the first period ending 6-3 in their favor.

During the last half, the Norwegians went into a rush and tied the score 9-9. The Western Highlanders opened the overtime period with a floor goal. The second-year men followed with a two count, then Paris made another floor goal giving them the lead. Just before the final whistle the home team netted a couple of baskets that gave them a one point margin. The Freshmen won from the Eighth Grade 13 to 6 in the preliminary.

Neighborhood Advice

Freely Given by a Norway Citizen.

When one has suffered tortures from a bad back and found relief from the aches and pains, that person's advice is of untold value to friends and neighbors. The following neighborhood advice comes from a Norway resident.

M. W. Sampson, Prop. boat transportation business, 19 Bridge St., Norway, says: "A cold settled on my kidneys and brought on attacks of backache. I was lame and unable to move any way, the pain in my back was so severe. My kidneys didn't act right and I had dizzy spells. A friend who had used Doan's Pills with good results advised me to try them, so I went to Stone's Drug Store and got three boxes. After I had finished taking them, the trouble left and I have been free from kidney disorder since."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Sampson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

STORY OF BY-GONE DAYS

Twenty-Six Years Ago

Bare ground in places with snow two feet deep in other spots. Wheels first used this spring on Mar. 16, for loaded teams in the village.

Klamath gold fever is raging again and a group of Norway people talk about organizing for a trip to the Copper River region. Among the enthusiasts are A. H. Bodkin, R. L. Bickford, Geo. E. Lasselle, Charles Cragin, Eugene F. Hayden, J. A. Woodman, A. G. Wiley, L. L. Russell, Seldon C. Foster, Geo. F. Hathaway and a small army of other adventurous sports. Sheriff Thaddeus Cross sold at auction a quantity of picks, shovels, barrows, etc., taken on execution from the Oxford Central Electric Railroad to satisfy the claims of C. F. Boober and Joseph Dennis.

Bates College students gave an athletic exhibition and variety program at Norway Opera House, Saturday evening. Features were dumb-bells, Indian clubs, foils and swords, sparring, horizontal bars and pyramids.

Unusual display of northern lights, Monday night.

Thickest crust in many years. Teamsters report hauling wood and timber across lots without the horses or sleds breaking through.

John F. Noyes of Greenwood has 700 trees tapped and is selling maple syrup in Norway.

Irish Bros' die block mill at Buckfield was destroyed by fire Sunday afternoon. Building was brick but the flames worked so rapidly inside, the heat had made little impression. Considerable kiln dried lumber was also destroyed.

The tin shop at the Paris Manufacturing Co. burned one night this week causing an estimated damage of \$1000 partly covered by insurance.

H. F. Webb of Portland will run the Norway corn factory as enough acreage has been subscribed. They will pack corn, beans and apples in the fall.

Home News From Bradentown, Florida By F. H. Noyes, Winter Exile

Some changes should have been made in my last letter, but owing to distance and limited funds as your reporter, I could not do it before you went to press. Hence your readers must forgive and forget the misstatements.

With Harry Brown and family we left St. Petersburg at 9:30 a. m., by boat, down the bay and up the Manatee River. Arrived at Bradentown 12:30 p. m.

It was a beautiful sunny summer's day, 72 above in the morning at St. Petersburg, 78 at Bradentown in the afternoon. We stopped at Arcade Hotel.

George M. Atwood and wife are here. George showed us the town in his brother Kimball Atwood's big car. Bradentown is a growing city of 5,000 people.

We visited the largest Atwood grapefruit grove. This is across the Manatee River in Palmetto, 90 rows of trees, each row one mile long—90 miles of grapefruit trees.

Last year they shipped 125,000 boxes. Two modern packing houses, they employ 100 Negroes, 3 white men as managers, and 30 mules.

The Sea Board Railroad run sidings to each packing house. They are now shipping three cars a day from this orchard.

They have other orchards of grapefruit and oranges in Bradentown. Good farming lands in this section. Three crops of garden truck raised on same land in a year.

One farmer, from 10 acres, raised and sold celery that netted him \$10,000, \$1,000 per acre. The crops look fine. Hardly vesting and planting all kinds of vegetables now.

We visited Kimball C. Atwood's estate, saw Mr. and Mrs. Atwood, they have a beautiful Southern home. Buildings different from any I have ever seen, one-story house, made of palm tree logs. It covers much ground, 17 acres in this estate, with fruit trees and tropical trees, shrubs and flowers.

Three bridges span the Manatee River at this point from Palmetto to Bradentown; one highway, two railroads, Sea Board, and Atlantic Coast line.

This (Sunday, March 16) morning intended going to Sarasota about 12 miles south, in an auto. Had to cut it out, as it was raining and still rains.

Monday afternoon, Mar. 10. A cold, windy day. Mercury 58 above 7 a. m.; 54 above, noon; 50 above 7 p. m.

Some changes regarding Norway people starting north what I wrote you last. W. H. Kilgore is sick (kidney trouble), won't be able to return home over land. Soon as he is able he and Mrs. Kilgore will start for Norway by rail.

In a few days Win Knight and wife will start with the north with the rest they all came down in. Was told this morning Paul Seavey was through work at the postoffice and the family would start north in a few days overland.

Beatrice Drake is stenographer for the Clerk of Courts at the County buildings and substituting for Rosie Merrill. Miss Merrill is caring for her sister, Mrs. Doris Jewell, who is ill at her home on Tucker street.

Weekly rehearsals of the Norway-Paris band are now held and a permanent organization, with officers and by-laws is nearly completed. The past few years the band has thrived without set rules or printed obligations and the time is considered ripe for definite action. Rehearsals are held in the Engine House hall and a bus conductor is anticipated.

Robert M. Taylor of Island Pond, Vt., is visiting his sister, Mrs. Walter L. Hutchins, and expects to remain for employment in the shoe factory.

John Judkins has been ill and Carl Perry is substituting for him as mail carrier on Route 1.

Mrs. Gertrude Barker is in Portland visiting her son, Dr. Hubert Barker, and daughter, Genevieve Barker.

Miss Elizabeth Hall was in Brunswick several days where she was guest at a fraternity house party. Mrs. Ann Carroll has returned to her home in Ellsworth after spending several weeks with her sons, L. M. Carroll and Edward Carroll.

If anyone has any feather cushions they would like to donate to the Nurses' Home on Winter street they will be very acceptable.

Its Automatic Features Make Easier Plowing.

Merely by a push of the foot you can control the John Deere-Syracuse Two-Way Plow so that the bottoms can do a good job of plowing on hillsides, on level land, in nooks and corners of irregular fields, around stones and other obstructions.

JOHN DEERE Syracuse Two-Way Plow Built in the East for the East

The John Deere-Syracuse Two-Way Plow is equipped with one right and one left-hand bottom. Each bottom may be used alternately, and the plow operated back and forth across the field, throwing the soil all one way.

With this plow you can do away with dead furrows and back ridges, where these are not desired.

The Syracuse Two-Way is practically self-operating. The next time you are in town stop in and inspect it. Get on the seat. Shift the levers—notice particularly the patented Auto Foot Frame Shift, regulating width of furrow, controlled by a slight pressure on the foot levers. The Clevis Shift and the Horse Lift are both automatic.

Syracuse Features

Syracuse bottoms—the bottoms that always fit perfectly and do a good job of plowing.

Made in different styles to meet every soil condition.

Wheels set wide apart—better than narrow tread for hillside work.

FRYEBURG

Daniel F. Sawyer

Daniel F. Sawyer passed away Feb. 25 after a long illness caused from a shock. He had been confined to his bed for over a year in the care of his oldest daughter, Mrs. Dora Wilkins at Ossipee, N. H. He leaves to mourn their loss two daughters, Mrs. Ruth Libby at Freedom, N. H.; Mrs. Dora Wilkins at Ossipee, N. H.; two sons Guy Sawyer at Nashua, N. H. and George Sawyer at Damariscotta; also 7 grandchildren and 4 great grandchildren and many friends and relatives. His age was 75 years, 27 days. He was a christian man and was liked by everyone who knew him. He was laid at rest in the tomb at Ossipee, N. H., and in May his body will be moved to Eppingham Falls and be laid at rest beside his wife, Mrs. Elura Sawyer, who passed away twenty-three years ago.

He had worked for different parties in Fryeburg and many other places. He was very smart and worked every day up to the time of his sickness. He would walk 15 miles in a day at 73 years of age. He belonged to the Free Mason Lodge but had not attended it for a number of years.

Evelyn Smith spent the week end at Chatham, N. H., with Mrs. Ralph Pitman. Mrs. Charlie Smith and family are confined to the house with very bad colds.

Mr. and Mrs. Ezra Lebrooke entertained at dinner, Sunday, March 9th, Mrs. Emily Paige and Mr. and Mrs. Jesse Littlefield and children of North Waterford, also Mr. and Mrs. Ernest Grover. It was Mrs. Lebrooke's birthday.

These warm days remind us that spring will soon be here and have brought back our old friend, the crow. We are glad to see the old fellow if he does pull our corn. A few quarts of yellow corn scattered over the place will most always satisfy him and save the planted corn.

EAST WATERFORD

Monday morning, March 10, while Mr. and Mrs. R. B. Pinkham were eating breakfast, George Gray, the stage driver, called to them to come and see the deer. It stood in front of the store several minutes, with its tongue out, acting dazed and weary as though it had been chased by dogs. It then went up the road slowly picking its way as far as Mr. Hilton's, then down across the field to the woods near the pond. Poor little thing, it almost seemed as though he was asking for protection.

J. B. Haskell was home over the week end. He reported his brother, Johnson Haskell, very sick in a hospital in California.

BEFORE THE DAYS OF AUTOMOBILES

By George R. Morton

A little more than twenty-five years ago, before the days of automobiles, a party of four, my brother Will, Edwin Forbes of Lexington, Mass., and Edwin Drake of Portland and myself found ourselves started for a trip to Sunday River, one bright morning in June. We had a pair of light horses and with equipment for a few days' fishing, a well loaded wagon made progress somewhat slow. Although we started at five o'clock in the morning, and were delayed a short time on the way, we took our dinner in a pine grove just before we reached Bethel.

I have thought of this many times as I have hurried by in a cloud of dust in a fast moving auto, and covered the distance in less than an hour that we took several hours to go with our horses.

However, I doubt if we enjoy our hurried, dusty, lightning speed, dangerous trips any more than we used to when we went but a gun, part of the distance and saw everything that was to be seen, and breathed the fresh air without the dust as we do now.

This was new country to me at that time, and I have a very pleasant memory of the whole trip, which seems to have been pressed on my mind much more than the other longer and faster trips that I have taken since.

About the middle of the afternoon we came to the house of Stillman Littlehale in Ketchum, which was our objective point and where we made arrangements to be taken care of for two or three days.

The events of this trip were neither unusual or exciting as we did not have unusual luck in fishing, although we got all we could eat which ought to satisfy anyone, but there were two or three things that occurred on this trip that seem to have become so firmly fixed in my mind that the many years that have elapsed have not allowed the memory to fade.

The Love of Fishing
A man of any age, no matter how old, if he was once a bare-footed country boy and has followed along the banks of a brook fishing for trout does not need to be told that there was once something in life worth living for, if the years have taken off some of the keen edge of his pleasure.

There is something about that delightful little tug on the line and the sudden swirl of the line as it disappears under the bank or down in the depths of the deepest hole, that no one can appreciate who did not have these experiences early in life, when life was free from care and fishing was the only real important thing to be considered.

One of our party, Mr. Drake, had reached the years when life was mostly a memory for him, his three score years and ten were almost up at that time, and he had been very unfortunate in several ways, so that he walked with crutches, very slowly and painfully and had the use of only one good eye at the time we went on this trip.

One of the pictures that my memory retains is a picture of this man, old in years but not in heart, as he sat on a rock on the bank of Sunday River, and renewed his youth with the trial to get the wary trout within reach of his hook.

He had been an expert fisherman in his youth and had not forgotten his skill, and although he could not move about much and did not get a long string of trout, he was the picture of perfect contentment as he sat there apparently as happy as when a boy with a long life before him.

Any fisherman who has fished Bull Branch will remember the many long and deep holes in the brook, and the swift water that the trout love to stay in, and although we did not have as good luck as we hoped for, it was a pleasure to see such sights as we can see there.

I distinctly remember going down a long slope where the water had cut a channel in the ledge as it ran down from one deep hole to another, and going down the rocky slope on the ledge I let my line run in the swift current, and almost to my great surprise it met a trout coming up in the narrow stream.

There was a violent yank of my line, and my light rod almost doubled but I had a half pound trout in my hands in less time than it takes to tell about it.

We spent one day on Bull Branch, fairly good luck although, like all fisherman, we did not get quite as many as we wanted, and it seemed that we had not chosen just the right time. The next morning I was up early and long before breakfast I was a half mile up on Bull Branch. I was trying one or two holes that it seemed to me a child could catch a trout, but my early rising was not rewarded in the way I expected for I got no fish, but I saw a sight that pleased me much more.

Just as I decided that I would fish no more, and had taken my rod apart and climbed up the bank to go back to the house, I came into a little opening where not five rods away stood a large doe and two fawns. One was a yearling that had been with the mother for a year and the other was a little spotted fawn, whose mother I think he had rather uncertainly indicated that he had been in the world a short time only. The doe did not seem to be afraid of me, and I stood perfectly still and watched her for several minutes, until finally the mother gave the signal and three white flags disappeared before me and never have since, a doe with two fawns with her at the same time, and I think it must be for a short time only that the yearling goes with the mother deer, as the care of the newly arrived fawn makes it necessary for the yearling to take care of itself.

Before the Days of Air Planes and Flying Machines
At the end of the day when we had come back to the house and had our supper, our host, Mr. Stillman Littlehale, told us the following story, which seemed strange to us, as indeed, it was to all of that time. Although it was many years ago, I remember the story very distinctly, and I tell it as Mr. Littlehale told it as nearly as possible.

"I think it was about the year 1873 that this happened but am not quite sure of the date. I had planted a piece of potatoes on the meadow land a little ways above the old dam on Sunday River and one day in September when it was time to dig them I took the oxen and cart and intended to stay all day. It was a very warm pleasant day and my wife and mother, who was over eighty years old at that time, wanted to go with me. We took our dinner with us and intended to make something of a picnic as well as a hard day's work."

"I had been hard at work all the morning and after dinner was still busy when to my great surprise I heard a man calling in a very high and excited voice

from what seemed to be close by me. I looked about to see who it could be, and saw no one and as it was an open place in the meadow where I could see for quite a distance I was exceedingly surprised to still hear the man calling and not be able to see him. I then began to distinguish his words, which were "grab the rope" "grab the rope" and he was then near enough so I located the sound as high in the air instead of on the ground, and you may imagine my surprise to look upwards and see a very large balloon, and an excited man leaning over the edge of the basket and frantically waving a rope which was coming swiftly towards me. I took in the situation at once and lost no time in catching the rope which I succeeded in doing with no great trouble, and getting a turn of the rope round a clump of bushes I soon had the balloon safely anchored and the man on the ground.

"It is needless to say that he was pleased to be safely landed with no damage to his balloon, and we were all very much pleased with the result of our minutes of excitement. He had made an exhibit of a fair somewhere over the other side of the White Mountain range and been carried by high winds clear over the mountains and had been unable to find a place where it was possible to land, until he saw me and made his successful attempt."

"Of course we were all exceedingly curious about his adventure and asked all kinds of questions which he was very willing to answer. He wanted me to help him get his balloon and himself out to the railroad at Bethel, and we soon began to make plans. It seemed the best way to tow the balloon along as it was until we could get to the oar and started to tow it along with the balloon a little above the cart. Before we started my mother, then over eighty years old but young in mind, said that she had lived a good many years without having a ride in a balloon, and such opportunities did not come very often, she thought she had better improve this one, and ride home in the balloon instead of the cart as she had planned. Accordingly the basket was pulled down to the ground and took her first and last ride in a balloon, where she was very comfortably carried to her house, like a queen in her chariot."

"The next day the gas was let out of the balloon and it was carried to Bethel and put on the train there."

A short time ago I told this story to John Brown, who lived in that section of the country at that time, and he told me that he saw the balloon as it dropped down from high in the air, although he was several miles away, and the event was the talk of that vicinity for a long time afterwards.

The days of long trips with horses have gone by, and the swift automobile now carries the very same men and tourists to the most remote places, but I doubt if we really enjoy our hurried dusty trips any more, if as much, as we used to.

It is possible, also, that the passing of time has something to do with it, for the man that is traveling down the western slope of life sees with different eyes than he did when life was young, and he remembers with pleasure things that happened in his youth.

A critic digs through good things to find something bad.

Bowling Alley Notes

In the girls' match Tuesday evening,
Miss Decoteau's outfit defeated Miss
Christy's line-up. Ella Decoteau bowled
the highest mark with a total of 263 for
three strings. It is hinted a silver cup
may be given soon to the girl champion
of Norway.

Two teams from the Norway Shes Co.
cutting room played off a match for an
important decision. Hayes boys topped
"Sparky" Hosmer's colts 1283 to 1251.
Mrs. Rich's Boarders were too husky
for "Stub" Eastman's Whirlwinds as the
following summary will show:

BOARDING HOUSE ALL STARS	STUB'S WHIRLWINDS

Friday evening. Mr. Parrin will offer
another trophy for a continuation of the
question.

The Ladies' Circle of the Universalist
church will meet with Mrs. S. B. Cum-
mings, Friday at the usual hour, 8 p.m.
Elizabeth Crockett Blake Tent, Daugh-
ters of Veterans had a busy day, Fri-
day, serving a "public dinner" at noon to
more than 200. An excellent baked ben-
and salad menu being served. Mrs. Em-
ma Swan was chairman of the committee.
At supper time, a tea cent supper was
served the members, and the regular
meeting followed. It was voted to serve
another public dinner in April and the
committee in charge includes Mrs. Flor-
ence Smith, Mrs. Eva Fogg, Mrs. Emma
Libby, Mrs. Flora Newcomb, Mrs. Maggie
Lynn and Mrs. Laura Thurston. After
the business meeting, a St. Patrick party
was held. As this was the 29th wedding
anniversary of Mr. and Mrs. Ferdinand R.
Swan, the Daughters thought it a good
time to celebrate, and the bride and groom
were given a surprise when they were pre-
sented with a fern dish from the Tent,
and a wedding cake, elaborately decorated
with two Keppies in the frosting, from
an old time friend. Mr. and Mrs. Swan
were given a reception, and showered with
congratulations. Several contests made
much amusement. Walking the letter
"S" blindfolded was tried by several,
and prizes were awarded Reta Frost,
Maybelle Fogg and Roy Curtis. Another
blindfolded stunt, walking the letters D,
V, was well done by several, and Mrs.
Dunice Marston and Frank Lovejoy were
the prize winners. In a penny cake walk,
Mrs. Hattie Harvey was the winner, and
the donated the cake to the Tent again
to be auctioned off. This was decorated
in green and was lighted with a green
candle. Another cake, with decorations
of St. Patrick and his tall hat pipe and
jug, was auctioned off and brought \$1.25.
Bids ran close and much fun. A box
of chocolates also went to the highest
bidder. Games and dancing were en-
joyed and a penny lunch was an at-
traction with many St. Patrick articles
in evidence. The committee for the even-
ing included Mrs. Lilla Rice Mrs. Eva
Fogg, Mrs. Merle Brown and Mrs. Ger-
trude Estes. The day was most success-
ful and a goodly sum was realized.

GOOD OLD WINTER
Some say they don't like winter,
That it always is a bore;
They hate to hear the wind blow
And to have the chimneys roar,
But have you ever noticed
That the people of this mind
Are chiefly those who stay indoors
And visit with their kind?
Did you ever hear a child say
That he didn't like the snow?
He calls it Nature's fairyland
And says he likes the snow.
He's in it from the morning
Full the sun goes down at night
And has not a bit of fault to find,
But thinks the snow's all right.
His father too, who works outdoors,
He lags at his task,
He says with a good winter
He has nothing more to ask.
The young folks like the winter
For it brings them many sports;
They go for sleigh rides, skate, and ski—
Are always in the sports.
In questions of importance
We may mostly hold as right
The opinions of the people
With experience to guide.
So then don't give old winter
The cold shoulder, as they say,
But accept what he can offer us,
And see if it won't pay.

ABOUT SANIBEL ISLAND, FLORIDA
Sanibel Island is about three feet above
sea level. It is 15 miles long, and 5
miles wide. The official population is
about 60 people, many more in winter,
being a fine winter resort. This is the
height of the season and both hotels and
all of the cottages are full. The birds
are very plentiful. There have been seen
over 90 different kinds.
Spring begins the middle of February
here. Sanibel Island has always been
noted for its beautiful shells. Tons of
them are piled up on the beaches
by every tide. There seems to be more
Button Wood and Sea Grape than any
other wood. They are used a great deal
for fuel. There are many kinds of palm
trees here and some pine.
The "Women's Civic Club" is held at
a house that was built by one of first
land holders here, who took up Govern-
ment land about 75 years ago. "The
Bachelors" is now a boarding house kept
by two maiden ladies by the name of
Nutt, daughters of the first land holder.
The two hotels are named, "Hotel Casa
Ybel," and "The Mathews and San Car-
los Inn." Dixie Beach is the first land-
ing on the island. Sanibel has its light
house and the Government reservation.
Wonderful trout revellers, Kinzie Boas,
own the tourist steamer, "The Dixie."

FIRST AID TREATMENT FOR
BURNS
Every mother should know the proper
method of treating burns. When the
skin is simply reddened, exclude air by a
thin paste made with water and bicarbo-
nate of soda (baking, not washing soda),
starch or flour. Ordinary vaseline, or
carbolic vaseline, olive or castor oil,
and fresh lard or cream are all good.
One of the substances mentioned should
be spread over the burned part and on
a cloth used to cover it. If using a thin
paste made from soda, starch, flour or any
like substance, keep it moist, for if
allowed to dry it irritates the burned sur-
face. When blisters have formed, treat-
ment may be the same, but if the blister-
ing is extensive it will be best to show
the injury to a doctor.
Scalds about the neck or chest, in chil-
dren, are especially dangerous and should
be treated by a physician.

CARD OF THANKS
I wish to express my heartfelt thanks to my
neighbors and friends for their kindly assist-
ance and words of comfort during my recent
bereavement, also Rev. W. A. Smith for his
comforting words.
Lorell Maine.

Director of Health Crusade Work Here
Miss A. M. Buck, Director of the Health
Crusade Work in Maine, was in town
Monday of this week, a guest of Miss
Pitts, the Community nurse. She visited
the fourth, fifth, sixth and seventh grades
talking to the children and teachers re-
garding this health movement. She re-
ceived very much pleased with the work we
have done and expressed hopes that an-
other year would find much better results.
This is practically a new movement and
meets with the same amount of disfavor
that all new movements do, but eventu-
ally it is the firm belief that this health
work will be a recognized and required
part of all school schedules.

Miss Buck visited the schools in Nor-
way in the afternoon and was much
pleased to find that although they were
not using the Health Crusade material,
they were having excellent health in-
struction. On Tuesday morning she went
to Bethel to talk this work to the teach-
ers and children there.

C. W. Hutchins, who received a severe
strain while working in the woods and
was laid up for some time, is better and
has resumed work.
Stella Harwood visited friends in Otis-
field last week from Monday until Thurs-
day and has been visiting in North Water-
ford the past few days.

Leonard Doughty cut his hand severely,
Thursday.
Merton Green has been ill and confined
to the house with a severe cold, but is
now able to be out.
Veslie Tucker has been ill since Satur-
day.

Mr. and Mrs. Zenas Mills of Bethel
were here last week called by the death
of Mrs. Mills' mother, Mrs. Betsy Barker.
Alfred Henry motored to Fryeburg,
Sunday, to attend the funeral of a
brother and returned Wednesday morning.
Howard Bennett was on the sick list
last week, but has resumed work in the
shoe shop.

Mrs. Howard Bennett, who has been
away for a short time has returned.
The Mother's Club will have their
Poverty Ball, Saturday night.
Those that received 100% in spelling
for the week ending March 14, in the
Norway Lake School were:
7th Grade—Eileen Dulea, Evelyn Brown.
8th Grade—Chester Morcy.
9th Grade—Merle Brown.
1st Grade—Henry Dyer, Stanley Batchelder.
Clark, Gerald Merrill.

Fishermen are speculating on the ice leaving Lake Umbagog. Here is a clue—Records since 1874 show earliest dates were April 10, 1902 and April 6, 1910. Latest was May 13, 1874. Last year April 28 was the auspicious time. In forty-nine years ice has disappeared on April dates thirty-eight times. What is your guess for 1924?

Members of the Swastika Club were entertained recently at the home of Maud Mixer on Cottage street. The time was occupied with needlework and refreshments were served.
Howard Shaw expects to resume weekly dances at Norway Grange hall commencing the first Saturday in April.
Hon. B. G. McIntire was in Burlington, Vt. and Concord, N. H., several days on business concerning the Federal Land Bank. This week he has been on a business trip to Utica, N. Y.

F. E. Morse, 23 Bradley street, Dorchester, Mass., was in town, Friday, and landed a trout. He lost his watch near Beale Tavern and hurriedly advertised the fact. In conversing with traveling men at South Paris a clue was found and the time piece located. This incident closely followed the loss of his hat in the public library at Lewiston. The head piece has not been found and he is wondering what is in store for the third time.

Edward McCormack was home from Portland over the week end.

Twin Town Baseball Team Another Season

A special meeting to settle definitely the baseball question, was held at the saloons of the Norway Buick Co., Friday evening, and a good representation of the business interests and fans attended.

Eugene N. Swett was chosen moderator and George H. Cullinan secretary pro tem. The meeting was opened to discussions, expressions of opinion and a free-for-all fight having bouquets to pass or bricks to throw. I. Wacker Brown, the efficient secretary-treasurer of last year's team opened the campaign. He believed in reorganizing and putting a team in the field next summer. In his opinion \$3,000 would be necessary on the start to insure a full season. About \$2,200.00 was subscribed last year, but some of this never materialized.

Other speakers were in favor of a team and confident money could be raised. Albin L. Buck of the Brown, Buck Co., expressed the opinion that Norway could ill afford to go without summer amusement for it attracted visitors and kept several hundred fans from traveling elsewhere on Saturday afternoons. E. N. Swett of the E. N. Swett Shoe Co., was certain a fast ball team is one of the best advertising mediums a live town may have. It indirectly benefitted every trader and he was willing to increase his previous subscriptions to the cause. Although not a fan, he was a good sport and knew a real ball team indicated a wide awake community.

A motion to reorganize was carried without a dissenting vote. Ways and means to clear a deficit, raise a new fund and elect officers occupied some time.

Officers for the Twin Town Athletic Association were elected as follows:

Directors—Hon. B. G. McIntire, Curtis, Eugene N. Swett, George L. Decker, Albin L. Buck, Albert L. Swett. The choice of secretary-treasurer was left with the directors, they will also appoint a team manager. Following an expression of the meeting, the manager will receive his commission immediately so players waiting our action may be signed at once. Without infringing prematurely on the duties of the directors, it is confidently expected that Billy White, the successful manager of last year's team, will be re-appointed.

On the question of raising money, Percy H. Nevers explained a plan of an Athletic Club securing two hundred members paying five dollars each with an understanding of a five dollar assessment if necessary at the close of the season. The first payment would net \$1,000.00 for a nest egg. Subscriptions would quite easily care for another \$2,000.00. With this amount pledged and with normal through to September. This plan was accepted and the finance committee instructed to get busy.

Another plan suggested to keep funds coming was a series of entertainments, each month during the season, with a committee chosen for every month to provide amusement and put it across. It was estimated \$1,000.00 might be cleared under this plan. No definite action was taken but the idea may be worked out when spring fever rages.

During the informal discussion, many things were learned. New uniforms are not necessary but some field equipment must be purchased. A number of profitable advertising concessions might be considered, among them a score card distribution. With the chances good for repeal of the amusement tax, at least one thorn in the flesh would be removed and a nickel clipped from admissions. Too many tournaments are considered bad business and the practice should be curbed. It was reported that the tournament idea originated in Norway. After spreading over the State it has followed balloon ascension stunts, therefore not good box office exciter. Billy White stated a majority of last year's players are anxious to return, even for less salary than many Associations offer. The boys liked the town, its citizens and the fair treatment of the town's officials.

The "ghost" walked with real money every Saturday which made the position worth while and the giving of their best efforts and strict personal attention. The ship is launched and it is up to every fan to throw a bit into the pool for a successful voyage. The old saw "Money makes the mare go" is obsolete in this age of flippers, but the self-evident truth applies to base ball with great force. Without cold cash we can't sit long in the game.

Since the meeting the directors have chosen George L. Curtis, treasurer, Albin L. Buck, secretary and Billy White player-manager. All have accepted. This year a business manager will be secured to handle the details of that office and work in conjunction with Billy White.

A Visit to Virginia
The following letter written by Miss Annie Hobbs, a native of Norway, who is now in Virginia, gives a very vivid picture of the cloud effects among the mountains of Lower Potomac Mission.

McMullen, Green Co., Virginia, Feb. 6, 1924
"I must tell you about our mountains and clouds. At times they are wonderful. I expect the South River and so many creeks rushing down the mountains. These clouds are below the tops of the mountains and below us also. Last Tuesday which of course set all these waters rushing along, the clouds looked again like the most picturesque lake with mountain reflections. I ever saw. Some smoke rolling along, then again they seem to form into mountains, then again they can in shape, others like a plateau and such huge shelving cliffs. Looks as though they would fall from them thought of feet below into chasms. As I pink separated the upper half from the lower clouds forming a perfect lake with mountain reflections. The apparition of flections are formed by the thin clouds near the earth, and you can faintly see from the real trees. I expect the color came from the sky. I think our northern colors are far superior to any I have seen here as yet but we have nothing to compare with these cloud effects. Well, dear sister, we had rather a swell feed on tonight. Rabbit, fried potatoes, green beans—never saw any like these before—they were "nice—picked while fresh and strung on a string to dry. To cook them boil the whole pods, then butter and salt them. We also had shredded bee.

cabbage with oil dressing and apple pie, which I made while getting breakfast. Miss Edwards says it is the first pie the house has produced since she came here nearly two years ago. It surely tasted good."

"Monday evening we sat in our rooms without a fire. Today I was cold all day until I got home. I washed after coming in and the clothes froze soon after being hung on the line. Now it is snowing gently. Expect this means we shall have it warmer in a few days again. Must close now and get to bed. With much love, Annie.

Favored For Fifty Years

AFTER AN OPERATION

Mrs. Wilke Couldn't Get Back Her Strength Until She Took Lydia E. Pinkham's Vegetable Compound

Rochester, Minnesota.—"I had a very serious operation and it seemed as if I could not get my health back after it. I suffered with pain almost constantly. My sister came to help take care of me, and she was taking Lydia E. Pinkham's Vegetable Compound for nervousness and a run-down condition. She had me try some of it, and in a very few days' time I began to feel better. In two weeks I hardly knew myself and after taking a couple of bottles more I was up and helping around again. I am strong and healthy again and am still taking it. It is a pleasure for me to write this to you, and I hope that many other women who are suffering like I was will find out about your medicine. I will give any information I possibly can."—Mrs. JAMES WILKE, 933 E. Center Street, Rochester, Minn.

Remember, the Vegetable Compound has a record of fifty years of service and thousands of women praise its merit, as does Mrs. Wilke.

It's very much worth while; you will enjoy looking. We will just as much enjoy showing you because we have every confidence in our merchandise and the large variety of styles appeal to all.

There are more style changes this season than for years. Some of the changes are real radical.

The new idea of looser lines appeals to the man who enjoys comfort. Let us show you the new English models.

Many prefer the closer fitting models and they are still good style. Plenty of these to show.

We find a large part of the younger fellows prefer the Sport models. Coats with belts of some description. Lots of suits just received made that way.

There is many a man who wants an extra pair of trousers. We have suits made with them. Some suits with two pair of regular trousers. Others with the extra pair a Golf or Knicker. Out-door life demands this type of garment.

It means that you are depriving employment to the people of Maine and giving it to those in other States.

It means that you are automatically assisting in increasing your own taxation, through the loss of large taxable revenues to the State.

It means that general prosperity and real estate values are lessened and transferred to other localities.
